Translating Footnotes

What Is This Presentation About?

In this presentation you learn to:

- ▶ Explain how footnotes are used
- ▶ Translate a footnote

What Is a Footnote?

- ▶ A footnote is additional text that usually appears at the bottom of a book's page and is referenced within the page.
- ▶ In BTT Writer, a footnote is shown as a black page icon that you click to display the footnote. 
- ▶ Footnotes can provide further explanation when:
 - ▶ There are proper names, words or terms that differ between various Bible versions
 - ▶ There are missing words or verses in the ULB. (There may be text in one Bible version that is not present in the ULB.)

Adding a Footnote

To add a footnote to the translation:

1. Copy the footnote.
2. Paste the footnote into the translated text.
3. Add footnote coding.
4. Translate the footnote text.

These steps are shown in the next slides.

Step 1: Copying the Footnote

To copy a footnote from the ULB:

1. Click the footnote icon to open it.
(Example is 1 Cor. 10:28)
2. Highlight the text of the footnote.
3. Copy the footnote text (**Ctrl + C** on Windows).
4. Dismiss the footnote.

²⁸But if someone says to you, "Do not eat a pagan sacrifice," do not be troubled by it, for the one who informed your conscience. ²⁹I do not

everything is lawful, but not everything builds people up. ... Instead, eat what is sold in the market, without asking questions, so that you will not be judged by your conscience. ...

Footnote

Some ancient copies of the Greek text add, "For the earth and everything in it belong to the Lord". But the best ancient copies of the Greek text do not have this. Many scholars see this addition as a duplication of verse 26.

²⁸But if someone says to you, "This has been offered in sacrifice," then do not eat it, both for the sake of the one who informed you, and for the sake of conscience—  ²⁹the conscience of the other man, I mean, and not yours. For why should my freedom be judged by another's conscience? ³⁰If I partake of the meal with gratitude, why am I being insulted for that for which I gave thanks?

Step 3: Adding Footnote Coding

Footnote coding identifies the text as a footnote and separates it from the surrounding text. To add footnote coding:

1. Type the following text at the beginning of the footnote, separated from the surrounding text by spaces: `\f + \ft`
2. Type the following text at the end of the footnote, separated from the surrounding text by spaces: `\f*`
3. If there is a quote within the footnote, replace the beginning quotation mark with: `\fqa` and a space
4. Replace the ending quotation mark with: a space and `\fqb`
