

BTT WRITER FOR ANDROID

Uploading, Exporting, and Importing a Project

What Is This Presentation About?

In this presentation you learn to:

- ▶ Explain why you should upload a project
- ▶ Describe the upload options
- ▶ Review a project
- ▶ Upload a project to the server
- ▶ Look at a project on the server
- ▶ Delete a project from BTT Writer
- ▶ Import a project from the server

The Android robot is reproduced or modified from work created and shared by Google and used according to terms described in the Creative Commons 3.0 Attribution License.

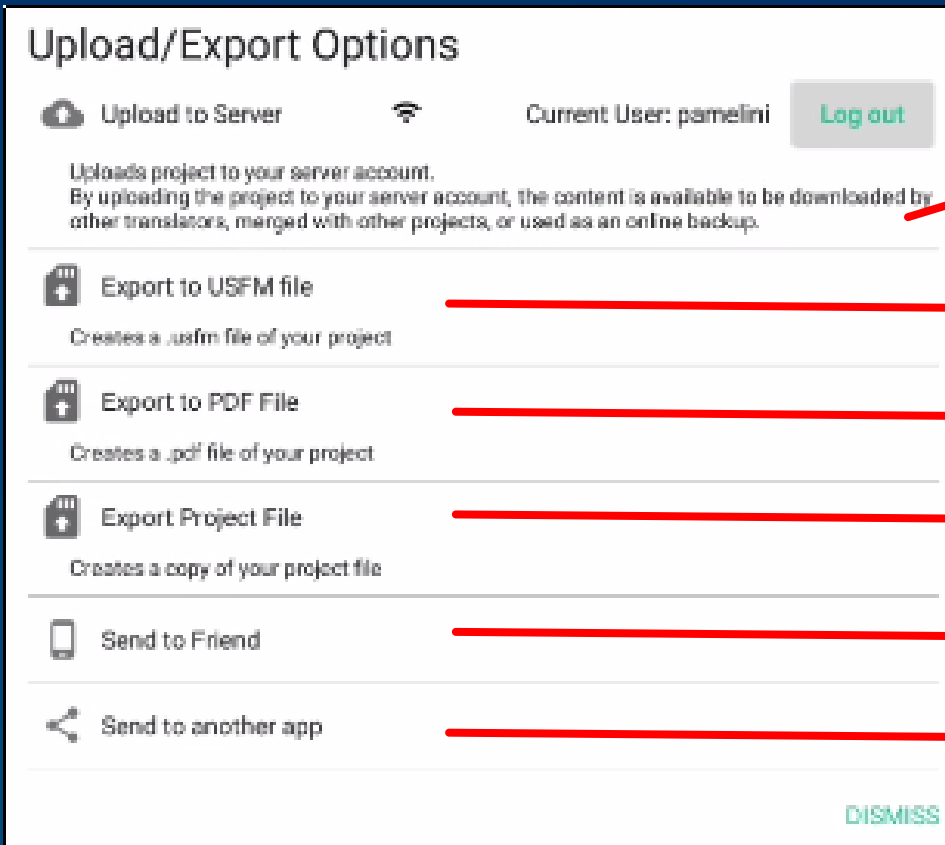

Uploading/Exporting a Project

- ▶ BTT Writer saves work to your device every 5 min. by default (can change in Settings)
- ▶ Good idea to create an offline backup in case:
 - ▶ Your files get corrupted
 - ▶ Your device crashes
- ▶ Enables you to:
 - ▶ Share your work with others
 - ▶ Work on a different device by importing to any device that has BTT Writer installed
- ▶ BTT Writer provides several ways to back up and/or share your work

Options for Uploading/Exporting a Project

- Options menu (3 dot icon) from Project Screen: Upload/Export

Upload to content server (requires internet connection and login to server account)

Save a USFM file on your device

Save a PDF file on your device

Save project on your device with tstudio extension

Allow another tablet to import

Send using Bluetooth, email, Google drive, or other app on your device

Exporting/Importing a Project

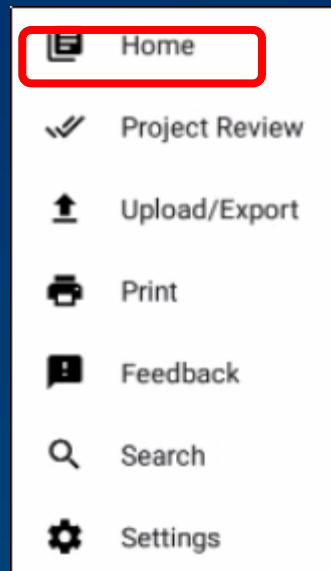

1. Log in to the content server (either WACS or DCS, depending on setting).
2. Review your project and add another contributor.
3. Export your project to the server.
4. View the project on the server.
5. Delete your project from your device (to simulate loss of the file).
6. Import your project from the server.

Step 1: Logging in to the Server

1. If you are using an **offline account**:

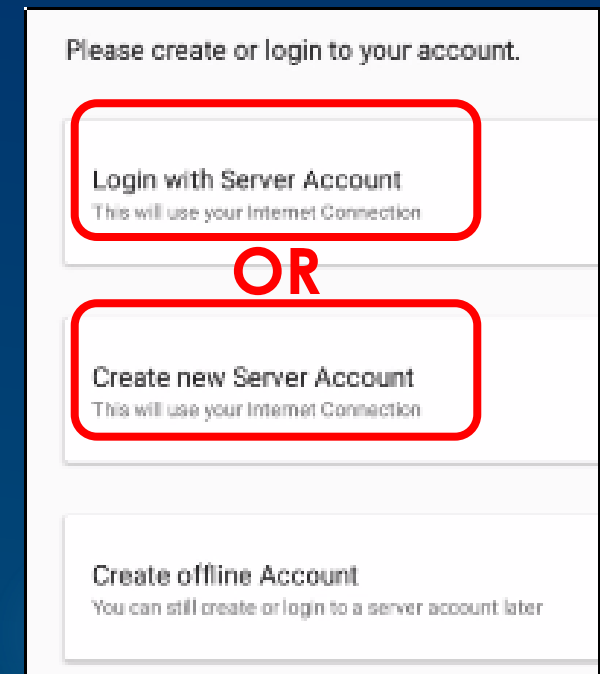

a. Log out of BTT Writer.

OR

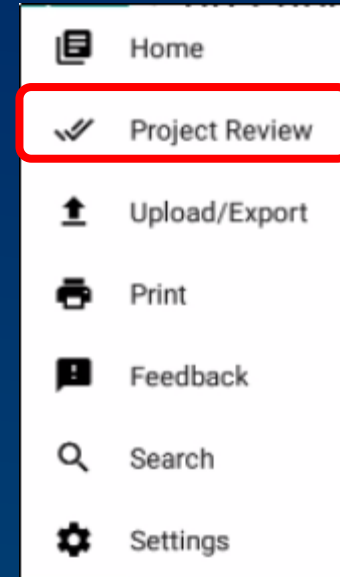

b. Create a server account, or log into an existing one.

Step 2: Reviewing Your Project

2. Review your project and add another contributor.
 - a) Open your project
 - b) Tap Project Review on Options menu.

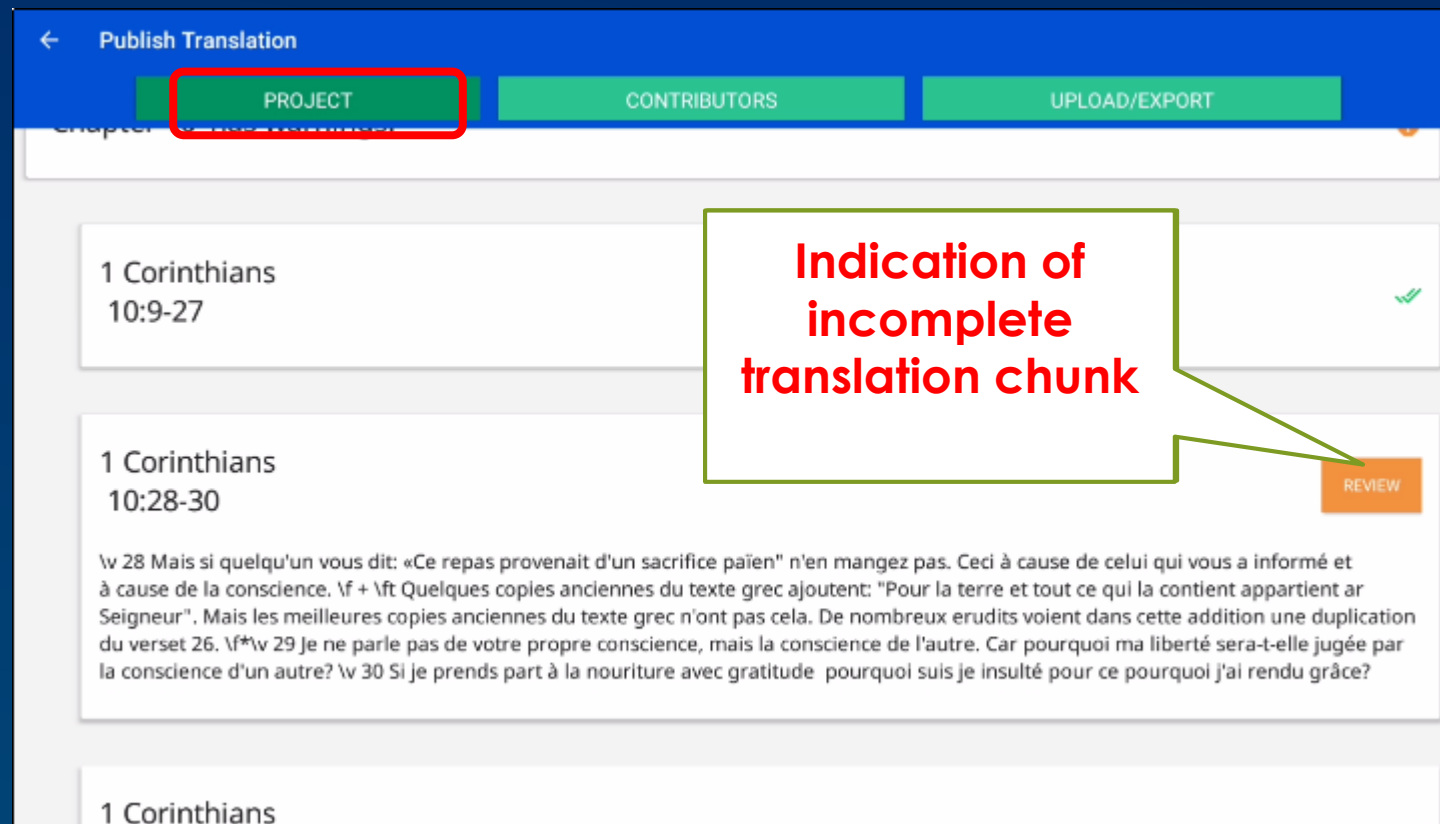

Step 2: Reviewing Your Project

1. Review your project.

- Open your project
- Tap Project Review on Options menu.
- Tap Project.
- Tap REVIEW buttons, if any
- Good idea to review before sharing or exporting

Step 2: Reviewing Your Project

2. Add another contributor.

- Tap Contributors.
- Tap Add Contributor.
- Add contributor's name and check the agreement box, then tap Save (you may have to tap the device's back button to dismiss the keyboard so that you can see the Save button.)
- Now the added contributor is shown.

Step 3: Exporting the Project to the Server

3. Export your project to the server.
 - a) Tap Upload/Export from either the Project Review screen or from the Options menu.]
 - b) Tap Upload to Server.
 - c) On the Upload Complete message, note the upload location:

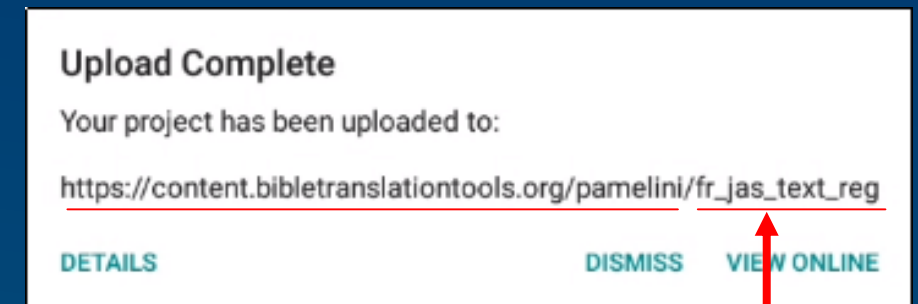

OR

File location:

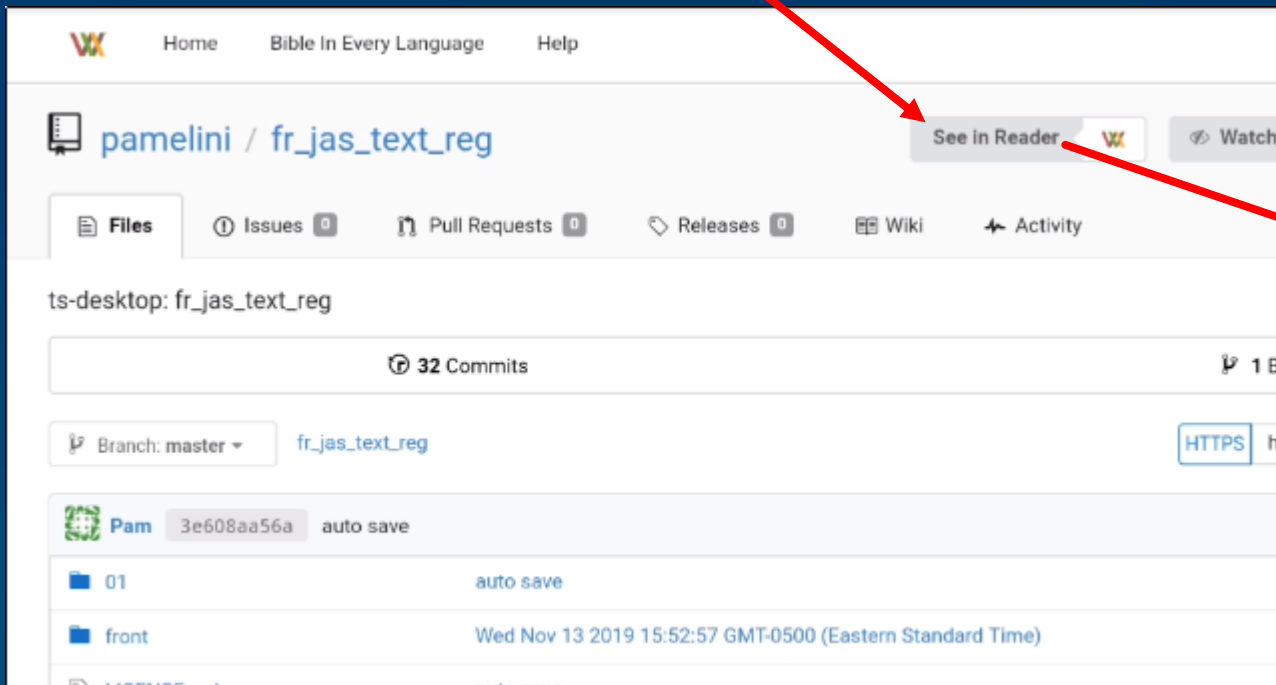

File name: LanguageCode_BookCode_ProjectCategory

Step 4: Viewing the Project on the Server

- ▶ Tap View Online.
- ▶ A browser window displays your project on the server.
- ▶ Tap **See in Reader** for read-friendly version.

Step 5: Deleting Your Project from Your Device (to simulate loss of the file)

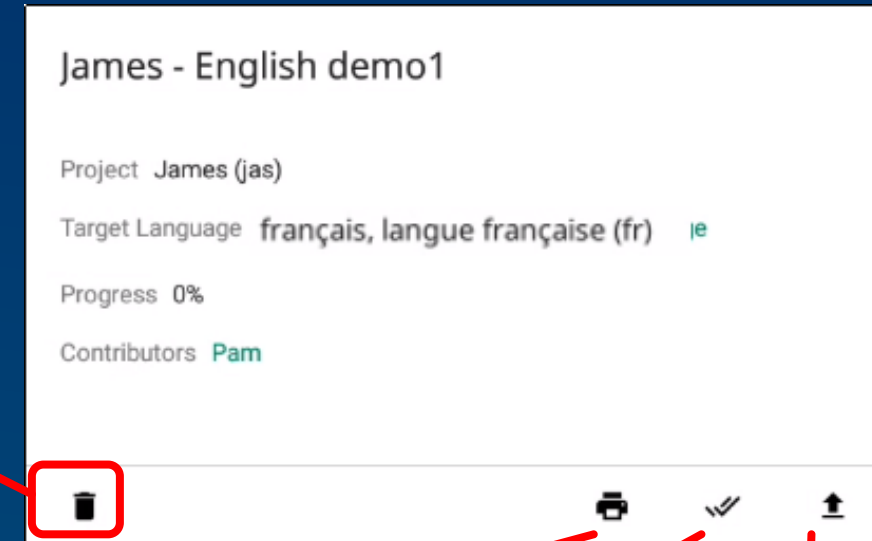

- ▶ On the Home page, tap the “i” icon  next to your project.

- ▶ Tap the Delete icon (trash can), and then tap Confirm.

- ▶ The project disappears from your home screen – it has been deleted from your device.

Other things you can do from this window:

**Print
Project**

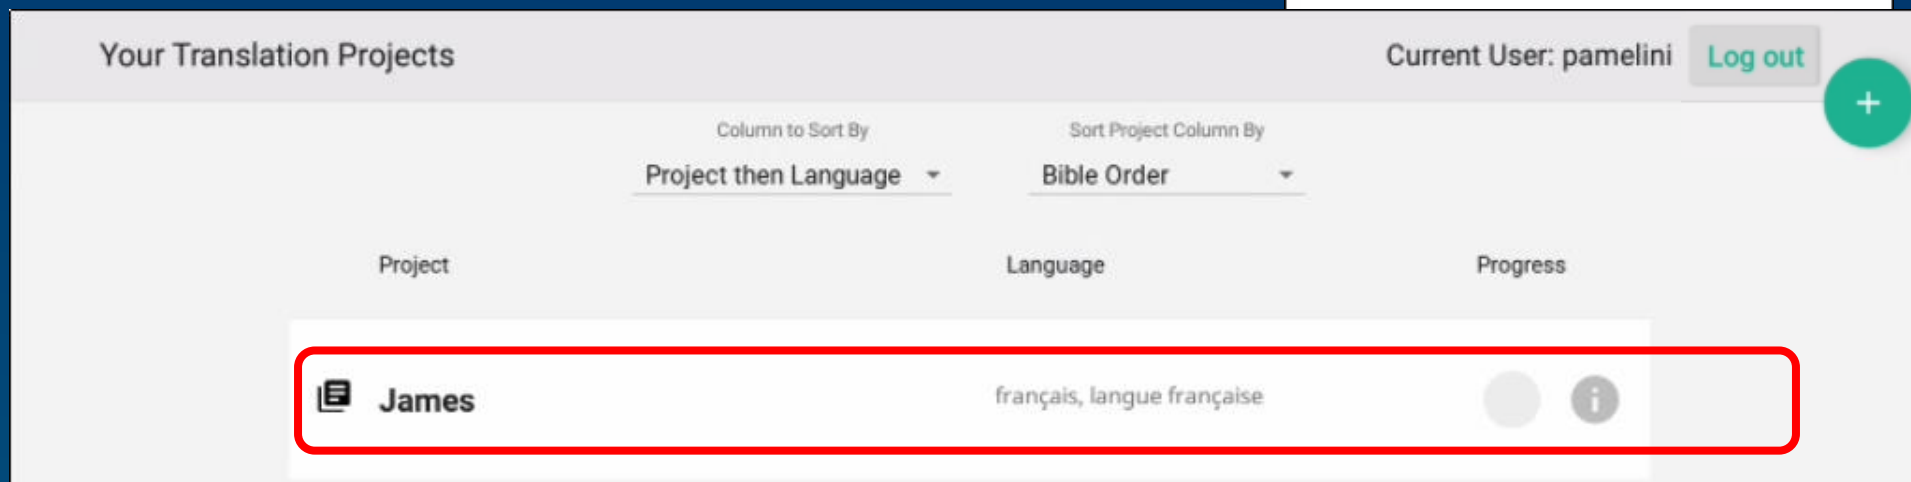

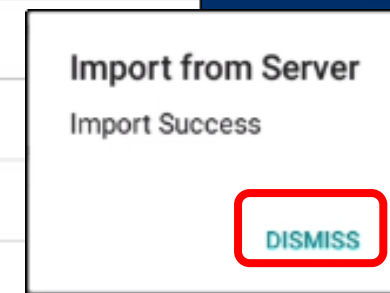

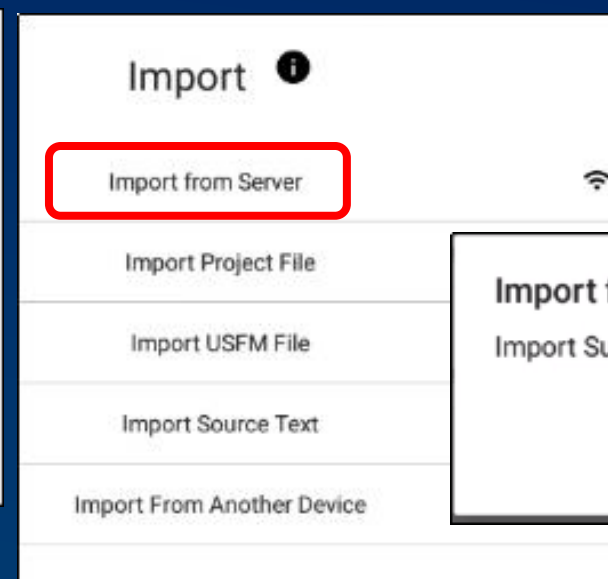

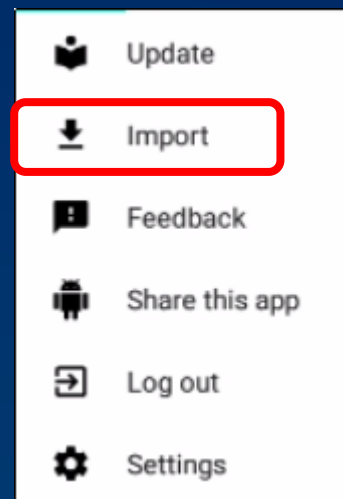

**Project
Review**

**Upload
Export**

Step 6: Importing Your Project from the Server

- ▶ On the Options menu, tap Import.
- ▶ Tap Import from Server.
- ▶ Dismiss the Success message.
- ▶ Your project has been imported to your device.

What Did You Learn?

In this presentation you learned to:

- ▶ Explain why you should upload a project
- ▶ Describe the upload options
- ▶ Review a project
- ▶ Upload a project to the server
- ▶ Look at a project on the server
- ▶ Delete a project from BTT Writer
- ▶ Import a project from the server
