

# translationStudio for Android

Publishing a Project

# What Is This Presentation About?

In this presentation you learn to:

- Describe the two types of publishing
- List prerequisites for source text publishing
- Explain the steps for source text publishing

*The Android robot is reproduced or modified from work created and shared by Google and used according to terms described in the Creative Commons 3.0 Attribution License.*

# What Is Publishing?

- Publishing is a way to make your work available to others.
- Two types:
  - Self-publishing
  - Source text publishing (only for Gateway Languages)

# What Is Publishing?

- Publishing is a way to make your work available to others.
- Two types:
  - Self-publishing
  - Source text publishing (only for Gateway Languages)

# How Do I Self-Publish?

- Upload your project to Door43 as often as you want to create a backup of your work (see [Upload to Door43](#)).
- Uploaded project is available online to anyone at the URL **`https://door43.org/u/username/project_code`**.  
[https://door43.org/u/pamelini/fr\\_jas\\_text\\_ulb](https://door43.org/u/pamelini/fr_jas_text_ulb)
- See [Uploading, Exporting, and Importing a Project](#)

# Viewing Self-Published Projects

From Door43, anyone can:

- See the web version of your project with default formatting
- Download documents of your project (like a PDF)
- Get the link to the USFM file for your project
- Interact with others about your project

# What Is Publishing?

- Publishing is a way to make your work available to others.
- Two types:
  - Self-publishing
  - Source text publishing (only for Gateway Languages)

# How Do I Publish Source Text?

To publish the source text for a Gateway Language you must:

1. Meet the prerequisites
2. Submit Source Text Request Form

# Prerequisites for Publishing Source Text

The source text must meet all of the following:

- Whole resource: Entire book or all of Open Bible Stories
- Appropriate [checking level](#): Level 3 for Bible translations
- Uploaded to Door43: Merge content if done on multiple devices
- All contributors listed by either name or pseudonym
- Agreements: Document agreements by all contributors to License, Statement of Faith, and Translation Guidelines;

May be done by having them:

Create Door43 accounts OR physically sign [documents](#) and digitize them (scan or photo)

# Submitting Source Text Request Form

To request that source text be published:

1. Perform [project review](#) to ensure that:
  - Translation is complete
  - All contributors are listed (include their Door43 usernames OR attach signed license agreements for them.)
2. Upload the completed project to Door43.
3. Fill out the source text request form at <http://ufw.io/pub/>.
  - You will be contacted about any issues.
  - You will be notified when publishing is complete for your review.

The image shows two overlapping screenshots of the Door43 web interface. The top screenshot displays a sidebar menu with options: Home, Project Review (highlighted), Upload/Export, and a section for Project Management (Print, Feedback, Search, Settings). The main content area shows the 'Upload/Export Options' dialog, which includes a 'Log out' button, a 'Current User: pamelini' status, and three options: 'Upload to Door43' (with a description about uploading to the account), 'Export to USFM file' (creating a .usfm file), and 'Export to PDF File' (creating a .pdf file). The bottom screenshot shows the 'Editing this Source Text Request Form' page, which has 'Write' and 'Preview' tabs. It contains instructions for filling out the form, a 'DISMISS' button, and a 'NOTE: All information on and attached to this form is public'. It also lists guidelines: 'Please do not remove or change any of the bold field names.' and 'The words in gray font are links. The links are active in the Preview mode. Please do not click on them.' The page title is 'How to Fill out this Form'.

# What Did You Learn?

In this presentation you learned to:

- Describe the two types of publishing
- List prerequisites for source text publishing
- Explain the steps for source text publishing
