### Translation Guidelines

To create a translation of high quality we recommend the following guidelines:

- 1. Accurate** - Translate accurately, without changing the meaning of the original text. Translated content should faithfully communicate as precisely as possible the meaning of the original text as it would have been understood by the original audience. Translators can achieve accuracy by recognizing the authority of the original language texts, and researching Biblical language tools to clarify difficulties.
- 2. Faithful** - Avoid theological or other bias in your translation. Use key terms that are faithful to the vocabulary of the original biblical languages. **Use equivalent, biological, common language terms for the biblical words that describe the relationship between God the Father and God the Son.** These may be clarified, as needed, in footnotes or other supplemental resources.
- 3. Historical** - Communicate historical events and facts accurately, providing additional information as needed in order to accurately communicate the intended message to people who do not share the same context and culture as the original recipients of the original content.
- 4. Clear and Natural** - Use whatever language structures are necessary to achieve the highest level of comprehension, complying with common form and flow in the target language.

We believe that a translation has the highest likelihood of being good quality when following the guidelines above, the following are completed:

It is tested and approved by believers of the language community and their ongoing revisions and improvements are made.

### Statement of Faith

#### Essential Beliefs

We consider Essential beliefs to be those that define us as believers in Jesus Christ. These cannot be disregarded or compromised.

We believe:

The Bible is divinely inspired by God and has final authority. God is one and exists in three persons: God the Father, God the Son and God the Holy Spirit. Because of the fall of man, all humans are sinful, and in need of salvation. The death of Christ is a substitute for sinners and provides for the cleansing of those who believe. By God's grace, through faith, man receives salvation as a free gift because of Jesus' death and resurrection. The resurrection of all—the saved to eternal life and the lost to eternal punishment.

#### Peripheral beliefs

Peripheral beliefs are those beliefs based on Scripture where sincere believers may have disagreements in their interpretation. These include areas such as modes of baptism, the rapture, second coming of Christ, the Lord's Supper and church practices. On peripheral beliefs, we can agreeably accept differences.
