Publishing a Project

BTT WRITER FOR THE DESKTOP

What Is This Presentation About?

In this presentation you learn to:

- ▶ Describe the two types of publishing
- ▶ List prerequisites for source text publishing
- ▶ Explain the steps for source text publishing

What Is Publishing?

- ▶ Publishing is a way to make your work available to others.
- ▶ Two types:
  - Self-publishing
  - Source text publishing (only for Gateway Languages)

What Is Publishing?

- Publishing is a way to make your work available to others.
- Two types:
  - Self-publishing
  - Source text publishing (only for Gateway Languages)

How Do I Self-Publish?

► Upload your project to the content server as often as you want to create a backup of your work (see Uploading or Exporting Your Work).

► Uploaded project is available online to anyone at the URL:

  ► For WACS: **https://wacs.bibletranslationtools.org/**_username/project_code_.

  ► For DCS: **https://door43.org/u https://door43.org/u**_/username/project_code_.

► See Uploading, Exporting, and Importing a Project
f

Viewing Self-Published Projects

From the content server, anyone can:

▶ See the web version of your project with default formatting

▶ Download documents of your project (like a PDF)

▶ Get the link to the USFM file for your project

▶ Interact with others about your project

What Is Publishing?

- Publishing is a way to make your work available to others.
- Two types:
  - Self-publishing
  - Source text publishing (only for Gateway Languages)

How Do I Publish Source Text?

To publish the source text for a Gateway Language you must:

1. Meet the prerequisites
2. Submit Source Text Request Form

Prerequisites for Publishing Source Text

The source text must meet all of the following:

- Whole resource: Entire book or all of Open Bible Stories

- Appropriate checking level: Level 3 for Bible translations

- Uploaded to Door43: Merge content if done on multiple devices

- All contributors listed by either name or pseudonym

- Agreements: Document agreements by all contributors to License, Statement of Faith, and Translation Guidelines;
  May be done by having them:
    Create Door43 accounts OR physically sign documents and digitize them (scan or photo)

Submitting Source Text Request Form

To request that source text be published:

1. Perform project review to ensure that:

   - Translation is complete

   - All contributors are listed (include their server usernames OR attach signed license agreements for them.)

2. Upload completed project to content server.

3. Submit source text request form:i
   at http://ufw.io/pub/.

   - You will be contacted about any issues.

   - You will be notified when publishing is complete for your review.

What Did You Learn?

In this presentation you learned to:

▶ Describe the two types of publishing

▶ List prerequisites for source text publishing

▶ Explain the steps for source text publishing
