Updating Source Text Lists

- Updates only the list displayed in tS, not the texts themselves

  - Reduces files to be downloaded

  - Must download source text before using

- Takes several minutes

- When complete, message shows number of available source texts – close that message.

- You now have option to download selected texts; you can tap **Home** in breadcrumbs to return to Home page.

Downloading Available Source Texts

When you choose **Download Available Source Texts** from the Update menu, you can view the source texts in one of two ways:

1. By language

OR

2. By book

# Viewing Source Texts by Language
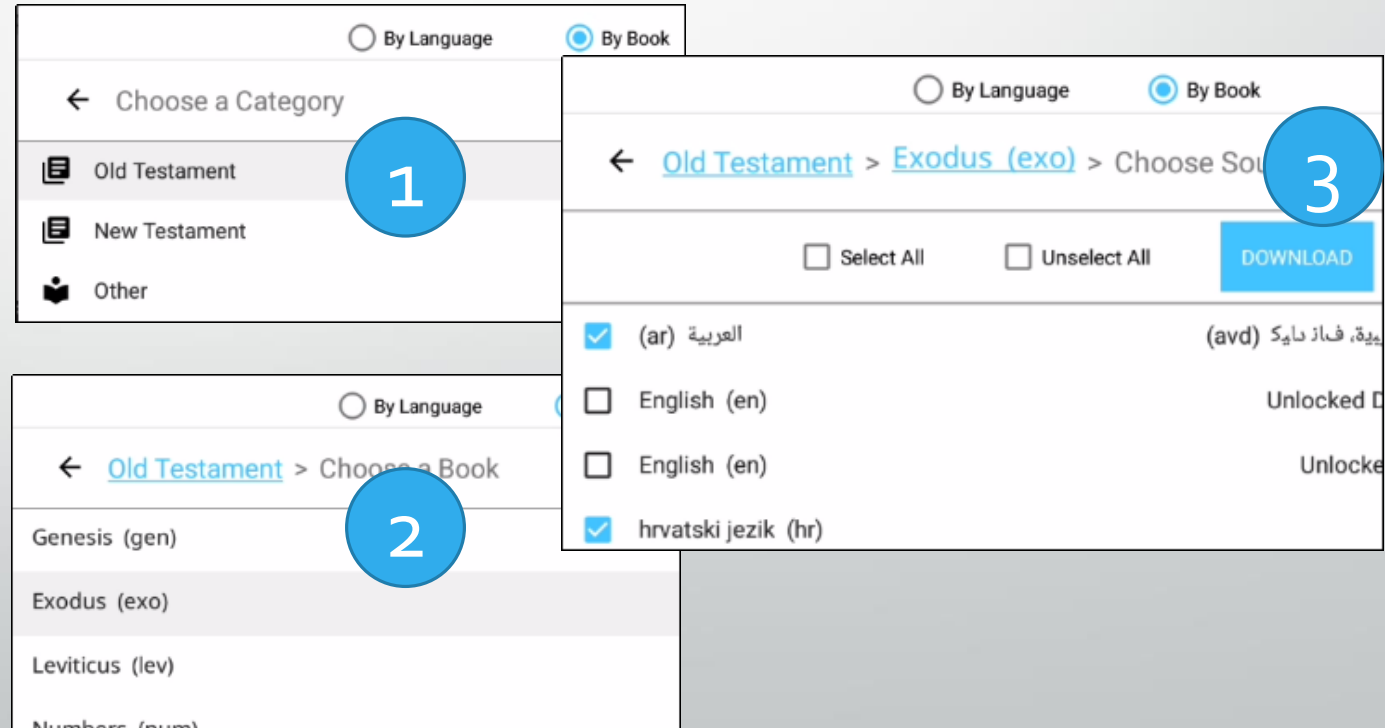

⦿ By Language ◯ By Book

- Enables you to download multiple books at once for a single language

- When you select a language, it shows only books available for that language.

- To view by language:

  1. Scroll to or search for a language.

  2. Tap a language to select it.

  3. Select a category of available texts.

  4. Check desired text(s) and tap **Download**.

Viewing Source Texts by Book
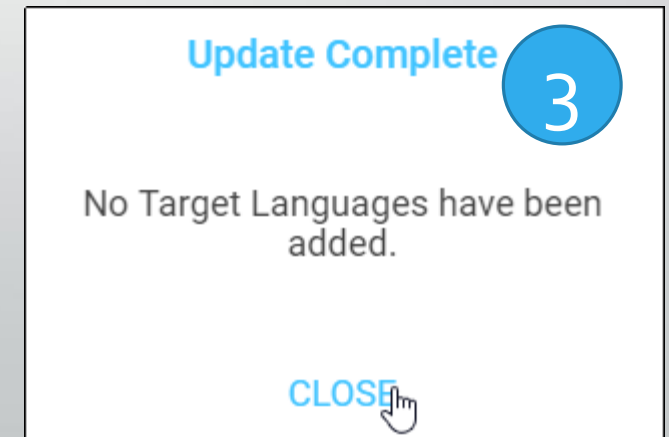

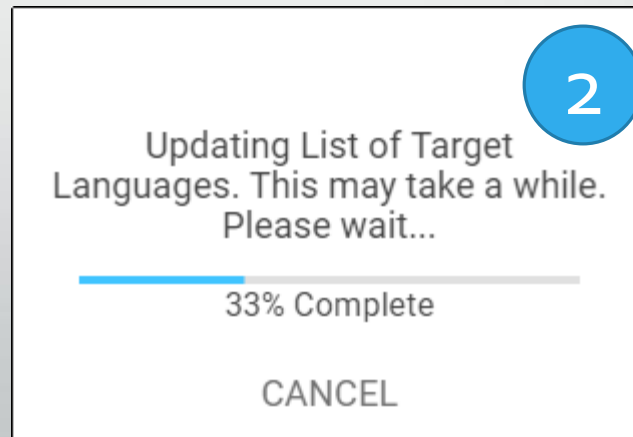

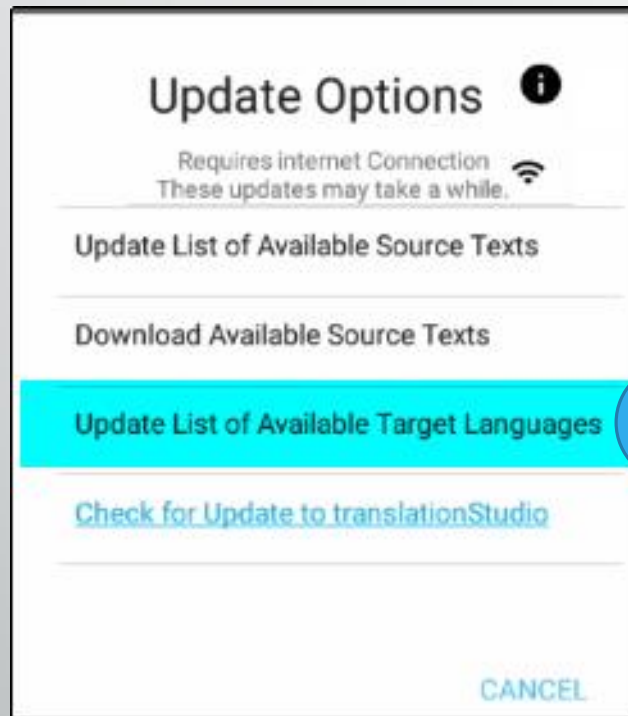

○ By Language   ● By Book

- Enables you to download multiple languages at once for a single book

- When you select a book, it shows only languages available for that book.

- To view by book:

  1. Select a category.

  2. Select a book.

 3. Check desired language(s) and tap **Download**.

Updating the List of Available Target Languages

To update list of all target languages available in the program:

1. Select **Update List of Available Target Languages** from the Update menu.

2. A progress window opens.

3. At the end of the process a message shows how many new target languages were added. Tap **CLOSE** to return to the Home screen.
